

Hsico Group, LLC
Supply Chain Consulting

Taking control of your Supply Chain Investment

Implementing, Planning & Managing

Hsiao Group is an Illinois based consulting firm specialized in implementing and delivering Oracle Advanced Planning Solutions (APS). The company is formed by tight-knit of senior professionals with more than 12 years experience in Supply Chain Management and Advance Planning Solutions (APS) implementations. As a national company, Hsiao Group has representation all over the nation ensure meeting the needs of a wide range of organizations.

Hsiao Group has proved that it can build for the future on the foundation of intimate knowledge of its customers' challenges and successes and the best technical and business minds in the world wide APS arena.

Leveraging your supply chain investment

During the past years, Oracle APS has become a leading solution as a consequence of the market necessity for advance supply chain planning. The benefits of implementing advance planning tools is to enable our clients to access the knowledge, skills and tools needed to respond proactively to market conditions with speed, agility and accuracy. The key to success is having the right implementation team that assesses your supply chain, finds the gaps slowing your organization and enhances your solution while making your investment work for you.

Supply Chain Management Business Functions

	Supply	Manufacture	Distribute	Demand
Strategic	Enterprise Material Planning	Enterprise Production Planning	Enterprise Distribution Planning	Enterprise Demand Planning
Tactical	Plant Level Material Requirements Planning	Plant Level Master Production Scheduling	Distribution Requirements Planning	Forecasts
Operational	Material Releases	Execution Level Scheduling	Transportation Warehousing	Orders

Many business requirements from clients are unique and difficult to translate into an APS technical solution. We know what works with one client and industry may not work with another. This is where the experience skills of our consulting team come into place to ensure that both, the solution and the tool provide an effective and flexible real world solution applicable to your business.

Hsiao group was formed after its founders realized the need of clients who were unfortunately left with a supply chain investment without a strong and efficient support of an implementation team. Many uncompleted and unsuccessful implementation are the result of lack of experience which drags the implementation time and costs through the roof, making your supply chain investment a nightmare. Unlike other tools, APS requires a specific set of skills that demand extensive thinking and knowledge that can only be acquired over years of hands-on experience. We provide that knowledge, so you can benefit from you supply chain investment.

We offer assessment, requirement gathering and development, design and best product and practice fit, project scoping, development, delivery, training and stabilization

Our Experience is yours

Due to the nature of the APS software and the many acquisitions of companies like Numetrix, JD Edwards and PeopleSoft, Oracle required skills to implement the tool has been weakened through the many restructuring. Hsiao Group realizes the importance and necessity of keeping a team of consultant that come from the Numetrix era and to make them available to clients that need to resolve complex business requirements. We make sure you gain the experience our consultants pride on, so that you can be left with the proper knowledge these types of tools require.

Our services include the following ORACLE / JDE products, which are also known as Supply Chain Solutions of former companies such as Numetrix, JDEdwards and PeopleSoft.

- * Demand Planning
- * Demantra
- * J.D. Edwards Advance Planning Solutions
- * J.D. Edwards Strategic Network Optimization (SNO)
- * J.D. Edwards Production & Distribution Planning (PDP)
- * J.D. Edwards Vehicle Loading (VL)
- * J.D. Edwards Advance Planning Agent (APAg)

Our Commitment to you

As a company and as individuals, we value integrity, honesty, openness, personal excellence, constructive self-criticism, continual self-improvement, and mutual respect. We are committed to our clients and partners satisfaction, we have a passion for technology and implementation excellence. We take on big challenges, and pride ourselves on seeing them through. We are accountable to our customers, to our partners, to our employees and shareholders by honoring our commitments, providing results, and striving for the highest quality.
